

# Safe and smart with the Ecotour

*Thank you for your interest in our ECOTOUR. We would like to ask you to follow these precautionary measures.*

1. Maintain a safe distance of 1 m.
2. A maximum of 20 participants per guided tour.  
**Note:** In the event of groups of 20 or more, we request that the remaining guests wait in their vehicle (e.g. bus). If you arrive on site on foot or by public transport, we ask that you stagger your time of arrival as we are unable to provide a waiting area.
3. A face mask that covers your mouth and nose must be worn at all times whilst on our premises. Please bring your own personal face mask with you.
4. All participants are required to wear a high-visibility jacket whilst on our premises. These will be provided on site.
5. Please wear sturdy shoes.
6. Hygiene:  
**Hands:** Please clean your hands with disinfectant before entering the Ecotour container.  
**Respiratory:** If you cough or sneeze, please cover your mouth and nose with a tissue and dispose of the tissue immediately. If you do not have a tissue to hand, please cough or sneeze into the inside of your elbow.
7. If you suspect that you may be unwell (coughing, runny nose, fever), you will unfortunately be unable to participate in the guided tour.
8. No handshakes – we smile: avoid all hand contact.
9. We are grateful for all voluntary donations that we receive for our Helping Hands Association.
10. Please follow the safety instructions provided by our guide.

We hope that you enjoy your visit to our plant!
